

TULIP 200

特点

- 集光固化机及美白仪于一体
- 强大的光功率输出，最高可达1800mW/cm²
- 五种治疗模式：最强、中强、渐强、脉冲、渐转强脉冲
- 时间可设置：光固化时间（0~60s），美白时间（0~30m）
- 彩色LCD显示
- 电池组合使用，座充、直充两用，即充电即用
- LED冷光输出能治疗所有的牙齿组织
- 低电压报警功能

间歇工作（美白工作模式下，两次操作时间应相隔3分钟以上）

技术参数

整机

大小：φ33mm

重量：250g

级别：Ordinary, B type, Intermittent working

工作电压：100~240V (A C), 50~60HZ

模式：LED Curing Light+Whiten accelerator 5 working mode (optional).

电池

类型：Lithium Battery

容量：2200Mah

光学参数

波长：420—490nm

光强：>1200mW/cm²

max reach 1800 mW/cm²

CHARACTERISTICS

- Unifies both whitening accelerator and LED curing light
- Strong optical output power, maximum to 1800mW/cm²
- Five treatment modes: Turbo, Normal, Soft start, Pulse, Pulse soft start
- Time setting: 0~60s for LED curing light, and 0~30 mins for whitening
- Full color LCD display
- Interchangeable battery pack, with both seat charger and direct charger
- LED cold light output can treat all dental tissue
- Alarm for low voltage
- Discontinuous operation: in the mode of whitening, the time-gap should be over 3 mins between two operations

TECHNICAL PARAMETER

Unit

Size of host: φ33mm

Weight of host: 250g

Grading: Ordinary, B type, Intermittent working

Working volt: 100~240V (A C), 50~60HZ

Working mode: LED Curing Light+Whiten accelerator, 5 working mode (optional)

Battery

Type: Lithium Battery

Battery capacity: 2200Mah

Optics Parameter

Wave length: 420—490nm

Luminous intensity: >1200mW/cm², max reach 1800 mW/cm²
